WOMAN'S DRESS AND MORALS.

concerning woman's dress and the effect which the extremely medish skirts or lack of them may have upon the meralical persons who have succumbed to the ultra-radical styles. In other days, when drosen were extensibly provided for the purpose of concealing the physical charms of women, with the exception of the head and hands, the styles affected y so many women and girls in these days would have been quite a hork. The transition has been somewhat gradual though and the effect upon the public can hardly be said to be of a disturbing character

Many persons are interested in the effort which the somewhat loose methods of dressing may have upon the morals of young girls, and this is a subject that may be discussed in all seriousness; for anything that would tend to lower the ideals of feminine virtue will react upor the race. Editors of religious news papers, leaders in the Young Women's Christian Association and others interested in various forms of social work are pronounced in the opin ion that the present styles of wom en and young girls in dressing will have a serious effect on the morals of the coming generation; that they have already worked an injury that will be difficult to overcome

The danger in present styles appears to consist largely of the pos sibility that the proponents of radicalism in dress may not be satis fied with what has been accomplished in the way of discarding yardage in dress. There is always a reac tion, however, which may prove to be the dominant influence in deter mining the matter.

GENEROUS AMERICA.

Announcement has just been made of the total of the contributions which went from this country last year for the relief of the war suf ferers in the Near East, and the figure is one of which all Americans may well be proud. We gave \$28,-270,577, which includes, in addition

ANNOUNCEMENT

CALIFORNIA PETROLEUM AND REFINING COMPANY OF COLUSA COUNTY, CALIFORNIA

THE OIL INDUSTRY, this company owns a perpetual lease upon 720 acres, right in the heart of the new oil district in Colusa County California and is now prepared to take subscriptions for treasury stock. The directors of this company a short time ago, authorized the sale of 100,000 shares of the Treasury stock at 25c per share, but since that time the company has practically made arrangements with the California Corporation Commission to sell its stock in that state, and when those arrangements have been completed the company will open an office either in San Francisco or Los Angeles and the price of the stock will be raised to 50c per share.

STATEMENT OF MR. T. J. MEDDOCK

THE CALIFORNIA PETROLEUM AND REFINING COMPANY

Gentlemen: I take pleasure in sending you a brief statement upon your oil holdings of Colusa Co.

California. First of all, you are centralcertain to be in the near future one of the great oil producing and many more will be working soon. districts of California. Next in

TO THE PUBLIC

After studying the outlines of this wonderful structure in the picture herewith presented and considering its After a further and more thou signifigance in the oil world you should not fail to grasp the opportunity now available, visit our office now open, and see samples of oil produced in that district. The highest grade lubricating oil yet discovered, and brings the highest price paid for a crude product, also specimens of the formation, an oil shale with all sorts ly located in what is almost of fossels and shells cemented together. Although the district is quite new there are many drills now at work

line is that most wonderful structure commonly called a "dome" or sign post for geologists. Undoubtedly this dome was forced up by great pressure, for it seemingly has no connection whatever with a glacier slide, considering the distance it lies from the nearest mountains, which is a low range, and practically only foothills.

The quality of the oil produced in that section is almost without an equal, and according to a cross section map made by the Tuscan Oil Company which is operating in that district, which I have examined thoroughly, and no doubt that company has proven to be correct, by the drillings of their well. I find that the formation and all surface indications are most excellent. rough examination which I will make very soon I will forward to you a full detailed report, and the possibility of your property.

Respectfully

(Signed) T. J. MEDDOCK, Licensed and Authorized Engineer of the State of California.
